

**ArcGIS Pro – An Introduction and Beyond**  
Instructor **Mike Sweeney** | Solution Engineer | ESRI

**Sunday September 8, 2019 1 pm – 5 pm, Central Florida GIS Workshop**  
**Must be registered for the Workshop to attend**

In this 4 hour workshop, you will be introduced to ArcGIS Pro, its interface and advanced capabilities. You will learn how to successfully make the transition from ArcMap as well as how to take advantage of the advanced features of ArcGIS Pro.

This workshop is divided into 4 sections, as follows:

1. Introduction to ArcGIS Pro

Whether you have tried ArcGIS Pro or not, it is a bit different from what you are likely used to. Learn how to navigate the ArcGIS Pro interface. See how Projects are organized. Understand a number of the options that can be controlled to make ArcGIS Pro work the way you want.

2. Making the Transition from ArcMap

You may be an old hand at ArcGIS Desktop and are now ready to make the transition to ArcGIS Pro. We will walk through first steps you can take to start moving your work to ArcGIS Pro. Let's talk about the work you do and how to get over the hump of learning and using this new application. There are a lot of resources for making this transition and we want to make sure you are taking advantage of all of them.

Break

3. How do I do *that* in ArcGIS Pro?

So you can navigate yourself around ArcGIS Pro. You can replicate your existing workflows from your ArcMap days. So what are you missing? What's the big deal with Pro anyways? Learn how to leverage what you already know about Pro with some advanced discussion on editing, map production and geographic analysis.

4. Advanced Features of ArcGIS Pro

Finally, we will wrap up with a section on what are considered some of the most useful and powerful features found only in ArcGIS Pro. For example:

- Learn how to take advantage of the Task feature in ArcGIS Pro
- Use Arcade for symbology, labeling and popup
- The Solution Deployment Tool
- Automation through Python and Jupiter Notebooks
