

Dr. Tim Hawthorne
Assistant Professor, GIS, UCF

Dr. Timothy L. Hawthorne is Assistant Professor (GIS), in the Department of Sociology, UCF. He is a broadly trained human geographer with deep interests in citizen science GIS, community geography, qualitative GIS, and critical GIS.

Dr. Hawthorne is Principal Investigator of the Citizen Science GIS Research Experiences for Undergraduates (REU) Site in Orlando and Belize along with Dr. Christy C. Visaggi of Georgia State University. He serves as Chair of the Applied Geography Specialty Group for the Association of American Geographers.

He also serves on the editorial board of The International Journal of Applied Geospatial Research. He is Founding Director of The Geospatial STEM Academy funded by The Verizon Foundation.

Dr. Hawthorne earned his PhD in Geography in 2010 from The Department of Geography at the Ohio State University.
